

Tips for getting ...

Conscientious Objection Form or soon-to-be-called the Vaccine Refusers Form signed.

This form in educated circles is otherwise known as the “Vaccine Refusers Form” or the “Refuse to Poison our Kids Form”.

You can download the form here

<http://www.humanservices.gov.au/spw/customer/forms/resources/immu12-1302en.pdf>

When making an appointment with a doctor to have the form signed, ask the receptionist

- her name (very important for later documentation – sorry I didn’t catch your name?)
- if the doctor is willing to sign the form
- if willing, when can you come?
- if not willing, why?

If you get an appointment please follow the guidelines below

- do not take children with you for this appointment
- do not sign any Medicare slip or pay for the consultation until after you have received the service you went for
- listen to the doctor and don’t argue
- ask for a copy of ALL the product inserts –(the doctors copy and not the sanitised parents copy)
- ask for scientific evidence that a raised antibody level equals immunity
- ask for copies of the scientific studies that compare the health of vaccinated children and unvaccinated children
- ask for scientific data to back up what he/she is saying
- tell the doctor you are open to reading any scientific data at home so please provide it
- if the doctor treats you with disrespect, ask the doctor “ is he threatened by people making informed decisions?” and also
- remind the doctor that according to the Australian Health Charter, you have a right to be treated with respect and your beliefs respected
- if the doctor continues with disrespect, let him/her know you will be reporting him/her for this conduct
- if you do not get the form signed DO NOT PAY for the consultation as you did not get what you went for. Explain that if you are forced to pay you will report this to the ACCC.

If you do not get an appointment with the doctor you called follow the guidelines below

- write down the name, suburb and phone number of the doctor you called
- write down the time and date you called
- write down what was said by the reception person (Name if possible) briefly about them not willing to sign
- call 2 other doctors and do as above
- if you get three doctors who refuse to sign go to a newsagent and purchase a blank Statutory Declaration or download one at <http://www.iinet.net.au/about/legal/pdf/statdec.pdf> or <http://search.mywebsearch.com/mywebsearch/GGmain.jhtml?searchfor=Australian+Statutory+Declaration+Forms&cb=UX&p2=%5EUUX%5Exdm014%5EYY%5Eau&qid=c36bb7625d934bfca3ac5b4f2cf93ee8&n=77fc4421&ord=7&ptb=D791B549-4D1B-4020-8007-3FAB55513969&ct=RR&si=maps4pc&pg=GGmain&pn=1&ss=sub&st=hp&tpr=jrel2>
- once you have this form photocopy it when blank for future use
- complete the form with the details of the refusing doctors
- take it to a Justice of the Peace to Witness your signature (most courthouses have a JP as well as shopping centres at designated times.) This is a free service
- Complete the Vaccine Refuters Form/Conscientious Obj form yourself and have the JP witness you sign this also
- Make 2 copies of each form before you send one away or lodge it at Medicare office

Please remember, you get what you put up with. So please value yourself enough not to put up with disrespect. You do not have to explain why you do not vaccinate – just merely say that you have done a lot of research and as yet have not found any information to support vaccinating.

Doctors are just people who went to drug company sponsored universities and have, for the most part, been brainwashed into thinking vaccines are safe and effective. They sit on a toilet just like you and I and are no better than you or I, so don't put up with being bullied, talked down to or abused by these people.

Ask yourself... would you put up with this behaviour from your plumber?
